

# IN-LINE BAG FILTERS

In-line bag filters remove chips & fines from cutting oil or coolant to as fine as 1 micron

## ADVANTAGES:

- Prevents tool breakage & machine shutdowns
- Greatly extends tool life
- Low cost, long life filter bags
- Easily installed in-shop in the oil or coolant lines

## APPLICATIONS:

Ideal for machining operations cutting aluminum, titanium, cast iron, plastics, or any materials that create small fines which contaminate the coolant.
